Defense.

At the first public sitting in the Antonelli will case, as appears by the mail reports, the court was crowded to suffocation. The defense maintained, as it was expected it would that the three old witnesses, whose evidence the plaintiff's counsel desire to have taken a once, are in perfect health and not likely to die before in the due course of the trial they would be called; also, that Countess Lam bertini, having a recognized civil position, could not seek to establish natural parentage when she was already known as the legitimate parents. Signor Tajani, for the countess, contended that the baptismal reg-ister did not constitute a legally established civil position, as required by the Italian law,

As regarded the mother, that was a matter for after conideration. The plaintiff 's counsel refrained from mentioning her name, because his clients were anxious to avoid the painful conse-

quences which would inevitably follow in-volving persons otherwise not interested in the case. Nevertheless, if it could not be volving persons otherwise not interested in the case. Nevertheless, if it could not be avoided, he should when the time came, be prepared to reveal her name, leaving the responsibility to his adversaries. from a Staff Correspondent of the Appeal. Como, Miss., August 6.—Along and dusty ride from Jackson, a pleasant night with Dr. Peebles, of Grenada, and a bottle of spark-ling wine are odd features in the routine of a newspaper writer. From Jackson to this point, the nominations made by the late Democratic convention met with unexcep-tionable approval. Whether this be due to the united feeling which pervades the Mississippi Democracy, or to the merits of the ger tlemen who have been placed upon the tick-et, it is difficult to tell. At Canton, Kosci-Durant, Winons, Valden, Grenada, Oxford, Holly Springs, Sardis, Senatobia and Hernando, the news has been gladly received. nd the work of the convention approve The platform, too, meets with indorsement for it is thoroughly and unequivocally Demo cratic in every sense. The chemistry of food is a subject that deserves especial attention, as it has a more direct bearing on health than any other science. Liebig's liquid extract of beef and tonic invigorator, Dr. T. Colden, proprietor, is one of the most useful and nourishing preparations in the world for invalids and persons of weak constitutions. Nothing so quickly and surely builds up and strengthens, and while it is palatable and nutritious, it has a health-producing effect on the liver and the whole digestive system. We recommend it highly; Episcopalians. The people are said to be church-going, and manifest an earnest interest in their respective denominations. The city has a good public school system, by means of which education s extended to the white and the black children. The fire department consists of five companies, one of which is colored. Of the companies, one of which is colored. Of the four fire companies, one owns a handsome steam-engine. The volunteer system exists in Jackson, but the members of the depart-ment are as much attached to their organiza-tion as if they received regular pay from the city. As regards hotels, Jackson is not be-hindband. The principal hotel is

THE CLARION, edited by Hon. E. Barksdale and J. L. Power. This newspaper is familiar to every household in Mississippi. Its career has been one of great usefulness, and its future promises a still grander field. Ever alive to the wants of the people, and always true to the principles of Democracy, the Clarion has justly earned, at home and abroad, a great and lasting name. The recollection and the benefit of its usefulness will remain and be cherished long after its editors are dead. Hon. E. Barksdale, the present editor, has just been made chairman of the Democratic State executive committee. A better selection could not have been made. The building is sixty-four feet front by one hundred feet deep, including a portice across the front end, and is four stories high. The building is seven hundred feet in length, and in point of beauty and durability it is equal to any similar institution in the Union. The grounds are extensive and afford ample accommodations for the recreation and promenading of the inmates. Of course, in a hasty notice like this, it were impossible to give a creditable notice of Mississippi's grandest institution, or to speak in fitting terms of Dr. William M. Flaherty & Sullivan,

The advantages are claimed for it: Simplicity of application, greater strength, both of the Tie and of the Band, close adjustment and freedom from slip, which prevent any expansion of the bale, and the impossibility of removing the Band without cutting it. The award of the Highlest Premium by the Texas State Fair to the GRIP-TIE over the Arrow and all other competitors, is simply an indorsement of the opinion expressed by all planters who have used it, as can be shown by letters and certificates in our possession. used it, as can be shown by letters and certificates in our possession.

Arrangements have been made for the manufacture of Bands of superior quality and in sufficient quantity to supply any demand, and for the present the price will be \$2.50 per bundle, of thirty Bands each.

The recent reduction in the price of ties was probably due to the competition of the GRIP-TIE, and as we offer a superior article at the same price, we trust dealers and consumers will recognize our claim to a fair share of patronage.
